Experience

Freelance Frontend Developer   Jun 2022 - Current
Self Employed

- Delivered professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript and React best practises
- Improved website performance by compressing caching and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world
- Revamped the Front-end architecture using ReactJS and Redux, improving the code reusability

Frontend Developer Support   Aug 2022 - Current
Frontend Simplified

- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript and React best practises
- Utilized debugging best practises using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests

Projects

Netflix Clone | Website | GitHub
- Created a full responsive movie app developed with movie DP API using React and JavaScript
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states and JavaScript functions to enable horizontal scrolling and title word limit
- Implemented a responsive design and multi-platform support to enable the website to be viewed on any platform and device

Twitter Clone | Website | GitHub
- Developed a social media app that allows users to post tweets to database and dynamically render tweets on Feed component from newest to oldest
- Built a full-stack application to store and retrieve tweets using Firebase real-time database and storage
- Created using react hooks and react-flip-move library to animate posting tweets and to implement a dynamic responsiveness to site

E-Commerce Library | Website | GitHub
- Created an E-commerce website that dynamically displays a dataset of library books
- Improved the websites by compressing caching and lazy loading images and components
- Built SEO responsive and multi-platform support with sorting and total items functionality

Breaking Bad Fanpage | Website | GitHub
- Integrated front-end components with RESTful APIs to develop a fully functioning web page that retrieves and filters characters and quotes from the tv series
- Developed a fully functional end-to-end site using ReactJS and CSS
- Implemented useParam React hook which dynamically matches route paths to functional pages designed using best UI/UX practices
